

FOR The Home Builder

6 Times More

We will endeavor to place before the public the fact that the place to get your Wall Paper and save the most money is at Clemm's Wall Paper Store. Why? Because we buy the quantity that gets the lowest price from the factory, and we have not raised the price one penny this year.

Of course, the price for hanging has advanced a little but the union demanded 50c per day more money, but you know we do the work so nicely an give entire satisfaction that you do not notice the difference in price and I am persuaded that this should be sufficient to an intelligent public to come to the right place.

Our workmen are proficient to do any class of work you may have to do, either in painting or papering.

A PLAIN SUBSTANTIAL HOME

DESIGNED BY CHAS. S. SEDGWICK, ARCHITECT.

The accompanying design is a plain substantial home built on square lines. It has a full concrete basement, a well constructed frame sheathed, papered and cemented on the outside with a "Pebble Dash Finish." The estimated cost is from \$4,000 to \$5,000, exclusive of heating and plumbing. The size of the main part is 28 ft. in width by 32 ft. in depth. A glazed piazza on the left, size 9 ft. 6 in. by 20 ft., with a sleeping porch the same size over. The interior of the piazza and sleeping porch are plastered and finished with hard wood floors same as other portions of the house. This design is for an east or south frontage, with a large living room, 15 ft. in width and 27 ft. in length, across the front and entered on the right-hand corner through porch and vestibule. The main stairs are located on the right of the living room and are built on the combi'ation order, with basement stairs and grade entrance underneath and a separate section of stairs leading to main platform from kitchen. There is one large central chimney with a liberal fireplace in the living room and with separate flue for furnace and kitchen. The dining room on the left at the rear of living room opens onto the glazed piazza with

glazed French doors and the living room also is connected with the piazza in the same manner.

The further end of dining room is finished with sideboard and china closets and small casement windows lighting over the same. The kitchen is well provided with cupboards and a convenient rear porch with space for refrigerator. The first story is finished in Washington fir, with dark

mission stain and the floor of oak. The second story is finished in white enamel with birch floor. These stories are 9 ft. and 8 ft. 6 in. in height. There are three good chambers, sleeping porch, large bathroom and large sized closets. The design of this house is very plain, the proportions good, the object being to secure the largest amount of home comforts at the lowest cost.

Concrete Walks

Why put up with the dirt and inconvenience of a cinder or gravel walk, or the positive danger of a board walk, when one of concrete will give permanent satisfaction.

The annoyance of mud on the carpets and kitchen floor, of wet feet and bad colds, and of loose boards that fly up and injure the careless, are entirely eliminated by the concrete walk. Rain drains from it rapidly, snow can be removed from it easily, and dust or mud can be washed from it with a hose.

Our Contract Department will gladly submit estimate.

LABOR IS SCARCE IN TAYLOR COUNTY

For First Time in Many Years,
B. & O. is Forced to Ad-
vertise for Laborers.

GRAFTON, May 6.—For the first time in many years, in this section, at least, the Baltimore & Ohio Railroad Company has advertised for skilled and unskilled labor. The continued heavy run of freight and the increase in the amount of work delivered to the local shops has made it necessary to secure more men.

To Move Office.
Local organizations have again taken up the matter of inducing the Western Union Telegraph Company to establish an up-town office here. Assurance has practically been given

that this will be done in the near future.

Hold Convention.

The ninth annual convention of the Morgantown District Women's Foreign Missionary Society met at the Andrews Methodist Episcopal church here Wednesday and Thursday of this week. Several prominent church leaders of this state addressed the meetings.

Dunbar Resigns.

Announcement has been made of the resignation of H. R. Dunbar, principal of the Grafton high school, to become assistant state superintendent of schools. He has been located at Grafton for two years past and has made an enviable record. His successor will be Prof. King, head of the Sistersville schools.

To Send Delegations.

The Grand Army Posts of this section are preparing to send strong delegations to the thirty-fourth annual encampment of the Department of West Virginia G. A. R., which will be held at Sistersville on May 16, 17 and 18.

They Will Do It.

A first class "heroic rescue" story was spoiled when a young woman dived into the river again to save her

canoe, after a narrow escape of herself and companion, when their canoe upset while shooting the rapids in the river here. She saved the canoe and reached the shore without further aid.

To Continue Fight.

At a meeting this week, at which offers of a compromise were made by the Pittsburgh and West Virginia Gas Company on a proposed increased rate in gas for domestic consumption, it was decided by local business interests to continue the fight against the increase and several thousand dollars were subscribed to continue the battle.

To Give Authority.

Adjutant General John C. Bond has assured local men who are organizing a military company that authority for the company will be given at once, when it is learned whether Wellsburg, which started to organize some months ago, will elect to fill the only remaining vacancy in the state militia organization.

Judge Robinson Speaks.

Judge Ira E. Robinson was the principal speaker at the impressive memorial services of the Loyal Order of Moose here last Sunday at the opera house. More than five hundred people attended.

Badly Burned.

Hunting for a gas leak along a gas main in the city streets, a man was burned this week and a heavy cover of a manhole was blown some distance when a pocket of gas exploded. The man is not seriously injured.

Cut to Pieces.

Virgil Cathel, aged 16 years, was cut to pieces by a helper engine near Hardman Sunday, while walking down the railroad tracks. He was a son of William Cathel, a prominent railroad man.

Ceremonial Session.

Ostris Temple Nobles of the Mystic Shrine, of Wheeling, held a ceremonial session here Friday, which was attended by several hundred nobles from the northern part of the state. A special train bore the visitors here from Wheeling. The entire city was elaborately decorated in honor of the visitors.

Organize Rifle Club.

The Grafton Rifle Club, with about fifty members was organized here Wednesday night and will secure rifles and start practicing as soon as a rifle range can be secured.

Thieves Ransack House.

While the family of A. E. Frush

was at church, thieves entered the residence and ransacked almost all of its rooms, but secured little of value. It is supposed that the early return of the family scared the thieves away. No arrests have been made.

Concrete Work Unsafe.

Some of the concrete work on the new county bridge has been found unsafe by local and state bridge engineers and will probably be removed. The bridge is perfectly safe, but certain portions of it were thought to be defective.

NOTICE TO THE PUBLIC.
